This chart reflects the colors we carry in stock for each surface style in the two thicknesses of the Multi-Loc tile. We can ship any of these items from stock 99% of the time.

Having said that, for a large enough order (1,000+ tiles, 2,500 sq ft) we will make any tile surface in any of the listed colors, in either thickness. However, this will be a "special order" requiring an extra week to 10 days to produce and ship.
