

**PRODUCT SPECIFICATIONS:  
MULTILOCK HI-TRAFFIC TILES****1.0 PRODUCT DESCRIPTION**

- 1.1 Colored tiles are made from virgin material. Black and gray are made from recycled materials that may vary from shipment to shipment, and the following specifications are therefore a median description only. Actual specifications with regard to density, brittleness, elongation and tensile strength may vary as much as 15% above or below the median figures represented below.

**2.0 PHYSICAL CHARACTERISTICS:**

Material:	100% Recycled cable grade PVC with UV stabilizers
Size:	19 5/8"x19 5/8" – Effective size 2.6 sq ft/tile
Thickness:	Approximately 5/16"
Weight:	3.75 lb
Colors:	Navy Blue, Royal Blue, Forest Green, Yellow, Dark Gray, Light Gray, Red, Black
Density (ASTM D792-88):	1.3 gram/cc
Brittleness/Temp (ASTM D745-73):	-24°C
Elongation (ASTM D638-77):	350%
Tensile Strength (ASTM D2863-77):	2000 psi
Waterproof:	Yes
Also Resistant to:	Oil, gasoline, most solvents, caustics, mold, mildew, water, ozone abrasion, aging. Retards development of bacteria.
Flame Resistant (ASTM 648 – class 2, MFA 253, NBSIR 75-950):	Yes

Note: Color and tensile strength not affected by heat, cold, humidity or sunlight (except red).
