Designed with a patented "ultra" wear layer to provide unlimited design options. UltraTile offers a new brand of visual excitement to any fitness facility or club interior. The modular 2' x 2' x 1" tiles can be placed over your existing floor, saving time and money. UltraTile is easier and faster to install then traditional glue down floors because no adhesive is needed.

These tiles were designed to withstand heavy exercise equipment and free weights and are extremely durable. In addition they surpass the noise and shock absorption qualities of any other fitness floor. UltraTile can withstand the constant dropping of free weights and pounding equipment without showing wear and tear.
